Re: Vaccination Requirement for 7th Grade Entry

The Ohio Department of Health has immunizations required for school attendance. Your child must have 1 booster dose of the Tetanus vaccine, Tdap (Tetanus, Diphtheria, Pertussis), prior to entry into the 7th grade. Under Ohio Revised Code 3317.67, the school must have written proof of immunizations on file by the 14th day of school. Students without proof are subject to exclusion from school.

For a complete listing of the immunization requirements, view the attached Ohio Department of Health (ODH) Immunization Summary.

You may obtain this vaccine from your private physician or other community providers. The Lorain County General Health District offers walk-in clinics throughout the county; please visit www.loraincountyhealth.com or call for a complete schedule of Child Immunization Clinics. For information on other recommended vaccines, please talk to your physician/provider.

Upon receipt of this vaccine, please have your physician/provider complete and submit the bottom of this letter or a current copy of your child's immunization record. Please contact an immunization nurse at the Lorain County General Health District if you have any additional questions regarding these updates or your child's immunization record at (440) 322-6367.
