

Student Growth Measure Scoring

50-45	Accomplished
44-40	Skilled
39- 35	Developing
34- 30	Ineffective

Value- Added (VA) = 1 year of progress from starting point for an individual student

Accomplished

50- Students have made *significantly more than VA (1 year, 8 months to 2 years)*.

The teacher has significant evidence of some students achieving *excessively more than VA (more than 2 years)*

48- Students have made *significantly more than VA (1 year, 8 months to 2 years)*.

46- The teacher has significant evidence that he/she has provided interventions to struggling students and a significant majority of students have made more than VA (1 year, 3 months to 1 year, 7 months).

45- Students have made more than VA (1 year, 3 months to 1 year, 7 months).

Proficient

44- The teacher has *significant evidence* that he/she has provided multiple forms of interventions to struggling students and students have made VA (8 months to 1 year, 2 months).

42- The teacher has *some evidence* that he/she has provided interventions to struggling students and students have made VA (8 months to 1 year, 2 months).

40- Students have made VA (8 months to 1 year, 2 mos.).

Developing

39- The students have shown *less than VA (3 months to 7 months)*, however, the teacher provides *extensive evidence* that he/she has attempted to use student data to drive instruction and has provided multiple forms +interventions to struggling students.

37- The students have shown *less than VA (3 months to 7 months)*, however, the teacher provides *some evidence* that he/she has attempted to use student data to drive instruction and has provided interventions to struggling students.

35- The students have shown *less than VA (3 months to 7 months)* based on the selected growth measures.

Ineffective

34- The students have shown *little VA (no growth to 2 months)* based on the selected growth measures. *Attempts of intervention have been made.*

33- The students have shown *little VA (no growth to 2 months)* based on the selected growth measure. *Minimal attempts* at intervention have been made.

32- The students have shown *little VA (no growth to 2 months)* based on the selected growth measure. *No attempts* at intervention have been made.

30- The students have shown *no growth or regression* based on the selected growth measure
