TASK #2: STAR DATA STORY

A Data Story for a school's Building Leadership Team (BLT) is a narrative crafted from analyzed data to illustrate key trends and insights, guiding decision-making and strategic planning.

It transforms raw data into actionable information that supports school improvement efforts and communicates findings effectively to stakeholders.

TASK #2: DATA STORY

**Answers
On Google Docs**

What is your school building Data Story based on STAR?

- 1. How has the percentage of students in each category (**At Benchmark**, On Watch, **Intervention**, **Urgent Intervention**) changed over the past three years for each grade level?**
- 2. Which grade levels are showing the most improvement, with more students moving into **At Benchmark**? What instructional strategies might be contributing to that growth?**
- 3. Is there any noticeable drop in performance when students transition from one grade level to the next?**
