Dear Durling Middle School Parents and Students:

We would like to welcome back all of our students and their families. This handbook is prepared in an effort to provide information regarding policies and procedures for the school, as well as the district. Please take the time to discuss this information and the content of this handbook with your child.

The Mission of Durling Middle School is “to provide all students with appropriate opportunities to maximize their academic potential, while acquiring those physical, social and emotional skills necessary for responsible participation in a rapidly changing society.”

This Mission also includes that all students can and must learn at high levels of achievement. Through a challenging curriculum, and meaningful instruction delivered by highly qualified teachers, our students will achieve academic excellence. In order to achieve this goal all members of our community, families, and Houses, must work together to help our students gain academic success.

Within our school environment we celebrate our staff and students in 8 “Houses”. Each student benefits from a safe and respectful team made up of adults and student peers from all four grade levels that will serve as mentors and classmates in both the learning and social arenas of school.

We are all part of your child/children’s team. It is our goal to provide a positive and constructive learning environment. Please let us know how we can assist you in making that happen for your child.

We are looking forward to a successful school year.
